## WRITE UP ON ENVIRONMENT EDUCATION

**Vishwa Bharati Public School Greater Noida** has taken several steps to protect the environment. These are as follows—

### 1. Compost Pit—

- Degradable and Non-degradable wastes are separated.
- Biodegradable waste generated in the school is used to make manure which is used for different plants in the school premises.

### 2. Use of Bio-degradable utensils in the school canteen—

- Our school canteen is a polythene-free zone. Biodegradable utensils are used in the canteen.

### 3. Rainwater Harvesting System—

- Rain water Harvesting System is already installed in our school which is maintained properly every year.

### 4. Installation of sanitary napkin incinerator—

- Sanitary napkin incinerator was installed. This plays an important role in disposing off non-biodegradable wastes.

### 5. Use of school application –

- All school related information is shared through the ERP school App. Paper circular and invitations have been stopped to save paper.

### 6. Awareness Campaign—

- Environmental Awareness has been created through different activities like plantation of saplings, poster making, slogan writing etc.

### 7. Water & Electricity Audit—

- The Eco-club under the guidance of the teacher go on rounds and report if they find leaking taps. Students and teachers are trained to switch off all the electrical appliances

before they leave the classroom for games or other activities. Water and Electricity audit in our school has reduced our water bill and energy bill. Solar Panels are also installed on the roof top which generates electricity.
