Learn to mix with other students, build confidence, develop, observation/identification on, self-expansion Enjoy joyful learning Learn the importance of punctuality. 	
1.	APRIL/ MAY	UNIT 1 SHAPES AND SPACE	<ul style="list-style-type: none"> Spatial relationship (position of the objects) Uses partial concepts like inside/outside above/below, top/bottom and far/near etc. Identify and draw things which are near-far, inside-outside, above-below etc. Compare the size of the objects. (Smaller-bigger, taller -shorter, Small -smaller – smallest) etc Sort, and describe the objects on the basis of shapes Sort 2 - The shapes such as flat objects made of card, etc. Sorting according to shapes. Objects that roll and slide- solid objects rounded and flat ones. one to one 	<ul style="list-style-type: none"> Identify the partial relationship of the objects. Read the words used for the different positions of the objects. Related Vocabulary development. Identify the basic shapes and learn the names of the shapes. Observe the shapes of the things in their surroundings and name them. Draw various shapes. (Sun, moon and stars.) Learn the vocabulary related to shapes. Round and solid objects roll and flat objects slide. Draw lines for the one-to-one correspondence to understand as manyas. 	<p>Children will paste plain shapes and make a scenery/ man of shapes.</p> <p>Paste/ draw 2 things that roll and 3 things that slide.</p>

1.	<p>MAY CONTINUED</p> 	<p>UNIT 2 NUMBERS FROM ONE TO NINE</p>	<ul style="list-style-type: none"> • Learn the numbers and the number names. • Comparison of numbers/objects. • Problem solving ability will be developed. • Concept of 'Zero'. 	<ul style="list-style-type: none"> • Read and write numbers and number names • Vocabulary development (more/less) • Counts the numbers correctly. • Write the numbers just before, in between and just after ascending/ descending order. • Can do forward and back counting. • Know the value of Zero. 	<p>Story of crocodile will be narrated.</p>
3.	<p>JULY</p> 	<p>ADDITION UNIT 3</p>	<ul style="list-style-type: none"> • Additions bringing together/joining. • Facts up to nine using concrete objects. • Introduction of the vocabulary say more, in all, altogether etc. 	<ul style="list-style-type: none"> • Learn the terms related to addition: add, join, altogether, total and plus (+). • Do additions with the help of pictures and numerically. Construct Addition fact using pictures and numerically. • Count the number from the bigger number in forward. 	<p>Number will be shown by pasting bindis.</p>
			<ul style="list-style-type: none"> • Commutative property in addition • Zero in addition. • Addition using only numbers. • Solves day-to-day problems related to addition of numbers up to 9. 	<ul style="list-style-type: none"> • Know the value of Zero. • Able to develop problem solving ability by forward counting 	
4.	<p>AUGUST</p> 	<p>UNIT 3 ADDITION (CONTD) UNIT 4 SUBTRACTION</p>	<ul style="list-style-type: none"> • Subtracts numbers using 1 to 9. Subtraction a taking away. • Introduction of vocabulary related to subtraction say take away, how many more/less, left etc. • Zero in subtraction. • Solves day-to-day problems related to subtraction of numbers to 1 to 9. 	<ul style="list-style-type: none"> • Learn the vocabulary: take away, remove, left, remaining and minus (-) • Do subtractions with the help of pictures and numerical. • Learn the value of Zero is nothing (NO) in subtraction. • Subtract two numbers without using concrete objects. 	
5.	<p>SEPTEMBER</p> 	<p>NUMBERS TEN TO TWENTY UNIT 5</p>	<ul style="list-style-type: none"> • Knowledge of numbers up to 20. • Computes, compares and tries to manipulate the numbers. 	<ul style="list-style-type: none"> • Read and write numbers and numbers names up to 20 • Compares the numbers up to 20. • Forward/backward counting. • Identify the biggest and smallest. • Write numbers: missing numbers, just after, just before, in between. • Ascending/descending order. • Learn the place and place value of the digits. • Read and write numbers in forward and backward order. 	<p>Two-digit number will be shown on an abacus by pasting bindis.</p>

5.	SEPTEMBER 	UNIT 6 TIME	<ul style="list-style-type: none"> • Knowledge of terms related to time. • Understands the sequence of the activities that are performed at home. • Estimates the time taken for different activities. Number of days in week Number of months in a year. 	<ul style="list-style-type: none"> • Gets familiar with morning, noon, evening, night terms. • Attempts to tell the activities of the day in sequence. • Vocabulary and real-life experiences. • Can differentiate shorter and longer duration of different activities performed by his family members and others. • Learn the week days and months of the year. 	Students will be asked to make a model of clock and show the time that teacher will tell.
6.	TERM – 2 OCTOBER 	UNIT 7 MEASUREMENT	<ul style="list-style-type: none"> • Understand the different terms related to measurement. • To identify the given objects using appropriate terms. • Measure the objects with the handspan, fingers, foot span etc. 	<ul style="list-style-type: none"> • Learn the terms long/short, tall/short, thick/thin, heavy/light, and differentiate and identify/represent them through pictures. • Understands the idea of length and distance. • Attempts to tell the length of the TV, table, book, mobile phone, length of the room with fingers, hand span and foot span. 	Children will be asked to measure the length of their desk using a scale and hand span for measuring length of their bag.
7.	NOVEMBER 	UNIT 8 NUMBERS TWENTY-ONE TO FIFTY	<ul style="list-style-type: none"> • Knowledge of numbers up to 50. • Computes, compares and tries to manipulate the numbers. • Place and place value. 	<ul style="list-style-type: none"> • Read and write numbers and number names up to 50 • Compares the numbers up to 50. • Forward/backward counting. • Identify the biggest and smallest. • Write numbers: missing numbers, just after, just before, in between. • Ascending/descending order. • Learn the place and place value of the digits. • Read and write numbers in forward and backward order. 	Students will be given number dictation. Children will paste/ draw things in ascending and descending order.
7.	NOVEMBER 	UNIT 9 DATA HANDLING	To represent the given information using picture and symbols.	<ul style="list-style-type: none"> • Students would be able to collect and record information in his/her own way. • Students would be able to give their own views on their recorded information and discuss with others. • Students would be able to solve problems in their real-life situations related to data handling. 	
8.	DECEMBER 	UNIT 10 PATTERNS	<ul style="list-style-type: none"> • Learning to observe relationships to find - connections - to make deductions, generalization and prediction. 	<ul style="list-style-type: none"> • Students would be able to identify the pattern right from school to home. 	Children will make patterns of different shapes/ objects.

			<ul style="list-style-type: none"> Enhances thinking ability improve the problem-solving ability. 	<ul style="list-style-type: none"> Students would be able to recognise the pattern in pictures, shapes, numbers, alphabets, colours and growing and decreasing patterns. Students would be able to understand the basic rule of creating a pattern and can extend the sequence. Students would be able to create patterns of their own. 	
8.	<p>DECEMBER</p> 	<p>UNIT 11 NUMBERS 50 TO HUNDRED</p>	<p>Knowledge of numbers up to 100.</p> <ul style="list-style-type: none"> Computes, compares and tries to manipulate the numbers. Place and place value. 	<ul style="list-style-type: none"> Read and write numbers and number names upto 100 Compares the numbers up to 100. Forward/backward counting. Identify the biggest and smallest. Write numbers: missing numbers, just after, just before, in between." Ascending/descending order. Learn the place and place value of the digits. Read and write numbers in forward and backward order. 	<p>Students will paste bindis or draw circles on abacus to show two-digit numbers.</p>
9.	<p>JANUARY</p> 	<p>UNIT 12 MONEY</p>	<p>Introduce coins and currency notes. Sorting out all the coins from the given collection. (₹1, ₹2, ₹5).</p> <p>To read the price tag on a packet of chips, maggi, choccos, biscuits etc.</p> <p>To find out the total value of the collection. (coins/notes)</p> <p>Make a given amount by using coins/notes of different denominations.</p>	<p>Demonstrates use of numbers in identifying money. Appreciates and uses the money in day-to-day buying and selling situations. Attempts to make use of small amounts of money by using 3-4 play notes of different denominations in different ways.</p> <p>Describes ways to find balance amount of a given amount after the purchase of given item. Estimates/approximates the money obtained in balance in such buying situations.</p>	<p>Children will make impressions of different coins.</p>
10.	<p>FEBRUARY</p> 	<p>UNIT 13 HOW MANY</p>	<ul style="list-style-type: none"> Knowledge of numbers. Computes, compares and tries to manipulate the numbers. Place and place value. 	<ul style="list-style-type: none"> Learn the place and place value of the digits. Write the numbers for the given collection (tens and ones) Compares the numbers. Identify the biggest, smallest. Compute the value of a given item. (In terms of money) 	<p>Children should be able to write numbers under ones and tens.</p>
10.	<p>FEBRUARY</p>	<p>REVISION</p>	<p>Mental ability, brain teasers based on Term- II syllabus.</p>		

PROJECT TERM I

Make a Man of Shapes by pasting plane shapes (roll number 1 to 20).

Make a scenery using cut out of different shapes (roll number 21 to 40).

PROJECT TERM II

Make a pattern of shapes by pasting cut out of plane shapes.

Paste zerox copies of Indian Currency notes and coins on A4 sheet.

SUBJECT – EVS

TEXT BOOK – MILLENIUM’S MY GREEN WORLD-1

(Term-I)

MONTHS	Units and TOPIC	SUB-TOPIC	ACTIVITY	LEARNING OUTCOMES	VOCABULARY ENRICHMENT
April	Unit-I Me and My Body 	Ch-1 Myself ● Self-introduction Ch-2 My Body ● Different parts of the body ● Functions of the body parts.	To make an ID card and paste it into the notebook. Labelling and coloring of body parts. A picture will be given.	Describe your favourite things and yourself.  Observe the different parts of the body and name them. Identifies the function of different body parts.	Name of different body parts. Different activities we do. With our legs and hands. Pulling, running, writing, jumping, eating, walking, painting, kicking, wiping, catching, standing.
May	Unit-1 Me and My Body	Ch-3 My Sense Organs	Draw/Paste pictures of sense organs and also write their functions.	Observe and name the five-sense organ. Identifies the function of five sense organs.	Names of sense organs And the five senses.
July	Unit –II My Surroundings   	Ch-4 My Family ● Family members ● Types of family ● Family members and the relationship they share Ch-5 My house and School ● Need for shelter ● Rooms in house ● Importance of school ● Rooms in a school	Make a family tree on an A4 size sheet. (Paste pictures of family members)	Recognizes the family members. Identifies the type of family they live in. Classifies the family according to the number of members.
